## General Comment

Shut down Social Security, stop Government well care, No one can invest better for me than I can, As a American I have the right to voice my own opinion that the Government is just a waste of money. Shut down the IRS they can't even balance their own portfolio so they steel from America's tax dollars. Put every one's tax dollar in a individual savings, or give it back so we can invest with it ourselves. People like who have had very little work these past eight years, and don't claim taxes each year loose tax credits, so the longer we wait to claim retirement, or disability the more the IRS steels. Everyone who receives a social security statement once a year sees if nothing is done to reform beginning in 2034 you'll only receive .49 cents for every dollar they've invest in social security.
